PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 2+ years of hands-on industry experience building real systems for real businesses. I work across the entire stack — from responsive, component-driven frontends to backend architectures, API design, and database management. I write clean code, solve hard problems, and build whatever needs to be built, end to end.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, Python, PHP, Java, C#, HTML5, CSS3
Frontend	React.js, Next.js, Redux, Tailwind CSS, SCSS/Sass, Material UI, Ant Design, Bootstrap, Radix UI, Shadcn UI, Styled Components, Vite, jQuery
Backend	Node.js, Express.js, Laravel, CodeIgniter, REST APIs, Axios
Databases	MongoDB, PostgreSQL, MySQL, Firebase
Mobile	Android (Java), Android Studio
DevOps & Platforms	Git, GitHub, Vercel, XAMPP, WAMP

WORK EXPERIENCE

Full Stack Software Developer

MYT SoftDev Solutions, Inc. — Cebu, Philippines

April 2026 – Present

- Engineered and maintained full-stack features across enterprise-grade systems including ERP, POS, Inventory, HR, and internal management platforms — owning both frontend and backend layers end-to-end
- Built dynamic, reusable, and scalable UI components using React and TypeScript, delivering responsive interfaces across modern and legacy applications
- Designed and implemented RESTful APIs and server-side logic to manage data flow across complex, multi-module business systems, integrating third-party and internal services
- Managed backend systems, database administration, and server infrastructure, ensuring stability, security, and performance across enterprise-level environments
- Developed interactive dashboards, operational forms, data tables, and reports tailored to complex enterprise workflows
- Implemented PDF generation, print functionality, and data export pipelines (Excel/CSV) for business reporting needs
- Optimized system responsiveness and performance, resolving UI/UX inconsistencies across multiple platforms and devices
- Collaborated closely with Project Managers and cross-functional engineering teams to deliver features, system improvements, and architectural enhancements aligned with organizational coding standards

Software Developer Intern

MYT SoftDev Solutions, Inc. — Cebu, Philippines

February 2026 – March 2026

- Contributed to and collaborated on major enterprise systems and personal software projects, including ERP, POS, Inventory, HR, and internal management platforms, working across the full stack on both frontend and backend layers
- Developed and delivered frontend features across modern and legacy applications using React, TypeScript, and various UI libraries and frameworks, building dynamic, reusable, and scalable UI components
- Managed and maintained backend systems, APIs, database management, and server administration, ensuring stability and performance across enterprise-level environments
- Designed and implemented server-side logic and APIs, managing data flow across complex, multi-module business systems and integrating third-party and internal services
- Created interactive dashboards, reports, data tables, and operational forms for complex enterprise workflows
- Implemented PDF generation, printing, and data export functionalities (Excel/CSV)
- Optimized system responsiveness and performance, and resolved UI/UX issues across multiple platforms
- Collaborated closely with Project Managers, developers, and cross-functional teams to deliver features and system improvements
- Wrote and maintained clean, scalable code aligned with project architecture and organizational coding standards

Freelance Frontend Developer

Remote — Various Clients

January 2023 – Present

- Consulted with small businesses, portfolio owners, and digital professionals to design and build modern, performant websites
- Built modern websites using React, Next.js, TypeScript, Tailwind CSS, Material UI, Shadcn UI, and Radix UI
- Developed reusable UI components focused on accessibility, clean design, and mobile-first performance

Freelance Full-Stack Web Developer

Remote — Various Clients

March 2022 – Present

- Built full-stack web applications for community schools and organizations, including websites, systems, and digital platforms
- Developed modern, scalable solutions using Next.js, JavaScript, Python, Express.js, and PHP
- Integrated MongoDB, MySQL, PostgreSQL, and Firebase to handle dynamic data and improve application functionality
- Maintained multiple projects simultaneously with timely delivery and client-focused communication

Faculty Associate — Facilities & Administrative Services

Southwestern University PHINMA, Cebu

May 2023 – December 2023

- Managed procurement, property management, and inventory tracking in compliance with university regulations
- Oversaw general administrative workflows including records management, supply encoding, and inter-department coordination

PROJECTS

Academia Access — Student Portal

Tech Stack: React · Vite · Tailwind CSS · JavaScript · jQuery · PHP · Laravel · LiveWire · MySQL

- Built a comprehensive student portal with role-based access for admins, students, and teachers. Enabled course enrollment, grade tracking, and real-time notifications.

E-Commerce Platform (Tank Trove — Aquatic Store)

Tech Stack: React · Redux · Tailwind CSS · Node.js · Express · MongoDB · JWT · Vercel

- Developed a full-featured e-commerce platform with product catalog, cart, JWT authentication, Stripe checkout, and an admin dashboard for inventory management.

DigiBayan — Barangay Information Management System

Tech Stack: JavaScript · Bootstrap 5 · PHP · MySQL · jsPDF · XLSXjs · XAMPP

- Designed a web platform to digitize barangay operations including permit applications, resident data, certifications, and real-time analytics.

Lease Track — Rental Monitoring System

Tech Stack: PHP · MySQL · Bootstrap · JavaScript

- Developed a rental monitoring system for landlords to manage house records, tenant tracking, and payment schedules.

Trucking Rental Services Web App (JDTS)

Tech Stack: React · JavaScript · Firebase · CSS

- Built a web app for a trucking services provider with Firebase integration and a responsive React frontend.

Eternal Canvas — Tattoo Shop Web App

Tech Stack: Vite · Web Design

- Built a tattoo shop web application for booking appointments, exploring designs, and showcasing the shop portfolio.

EDUCATION

Bachelor of Science in Information Technology

Southwestern University PHINMA, Cebu — Focus: Web Development & Software Development

Bachelor of Science in Information Technology

University of Visayas, Cebu — Focus: Mobile Application Development

CERTIFICATIONS & TRAINING

- React JS Tutorial Certificate — Great Learning (April 2024)
- Android Application Development Certificate — Great Learning (March 2024)
- AWS Cloud Practitioner Essentials — Amazon Web Services (June 2023)
- Coding Workshop Completion Certificate — Stacktrek Inc. (September 2022)
- TESDA — Workplace Communication & Environmental Sustainability (March 2022)
