Open to Local & Remote Opportunities

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 2+ years of experience building enterprise-grade systems, client-facing web apps, and scalable full-stack solutions. Proficient in React.js, Next.js, TypeScript, Node.js, and PHP — with hands-on exposure to ERP systems serving 12+ companies and 3,500+ users. Open to local and remote roles in Full-Stack, Frontend, Backend, or Software Engineering.

CORE COMPETENCIES

- | | | |
|---|---|--|
| ■ Full-Stack Web Development | ■ RESTful API Design & Integration | ■ Component-Based UI Architecture |
| ■ Frontend Development (React.js / Next.js) | ■ Backend Development (Node.js / PHP / Laravel) | ■ Database Design & Management |
| ■ Enterprise System Development | ■ Agile / Scrum Collaboration | ■ Responsive & Mobile-First Design |
| ■ Software Development Lifecycle (SDLC) | ■ Version Control (Git / GitHub) | ■ Role-Based Access Control (RBAC) |
| ■ PDF Generation & Data Export Pipelines | ■ Cross-Functional Team Collaboration | ■ Performance Optimization & Debugging |

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, PHP, Java, C#, HTML5, CSS3
Frontend: React.js, Next.js, Redux, Tailwind CSS, SCSS/Sass, Material UI, Ant Design, Bootstrap, Radix UI, Shadcn UI, Styled Components, Vite, jQuery
Backend: Node.js, Express.js, Laravel, CodeIgniter, RESTful APIs, Axios
Databases: MongoDB, PostgreSQL, MySQL, Firebase
Mobile: Android Development (Java), Android Studio
DevOps & Tools: Git, GitHub, Vercel, XAMPP, WAMP
Methodologies: Agile, Scrum, SDLC, Version Control, Code Review, REST Architecture

WORK EXPERIENCE

Full Stack Software Developer

MYT SoftDev Solutions, Inc. — Cebu, Philippines | April 2026 – June 2026

- Built and maintained ERP systems for 12+ enterprise clients — supporting 300+ employees each, including a nationwide deployment spanning 27 branches.
- Developed full-stack features serving 3,500+ end users across ERP, POS, Inventory, and HR platforms — owning frontend and backend end-to-end.
- Built reusable, scalable UI components in React.js and TypeScript across modern and legacy enterprise applications.
- Designed and implemented RESTful APIs and server-side business logic integrating third-party and internal services across multi-module systems.
- Administered backend systems, databases, and server infrastructure ensuring enterprise-level stability, security, and performance.

Software Developer Intern

MYT SoftDev Solutions, Inc. — Cebu, Philippines | February 2026 – March 2026

- Contributed to enterprise ERP, POS, Inventory, and HR systems across the full stack.
- Built reusable frontend components using React.js, TypeScript, and various UI libraries.
- Maintained backend systems, RESTful APIs, database administration, and server infrastructure.

- Built interactive dashboards, reports, data tables, and operational forms for enterprise workflows.
- Wrote clean, maintainable code aligned with project architecture and organizational coding standards.

Freelance Frontend Developer

Remote — Various Clients | January 2023 – Present

- Delivered frontend work for an international startup — developed UI themes and contributed to their e-commerce web application as a remote frontend developer.
- Design and build modern, performant websites for small businesses, portfolio owners, and digital professionals.
- Build responsive, accessible UIs using React.js, Next.js, TypeScript, Tailwind CSS, Material UI, Shadcn UI, and Radix UI.
- Develop component-based UI architectures with a focus on accessibility, clean design, and mobile-first performance.

Freelance Full-Stack Web Developer

Remote — Various Clients | March 2022 – Present

- Delivered 13+ full-stack systems for university clients including student portals, capstone platforms, and institutional management systems (client names withheld per NDA).
- Built tailored, production-grade versions of applications for specific universities — each customized beyond base versions to meet institutional requirements.
- Developed scalable solutions using Next.js, JavaScript, Python, Express.js, and PHP.
- Integrated MongoDB, MySQL, PostgreSQL, and Firebase across projects to handle dynamic data needs.
- Managed multiple concurrent projects with timely delivery, clear documentation, and client-focused communication.

Faculty Associate — Facilities & Administrative Services

Southwestern University PHINMA — Cebu, Philippines | May 2023 – December 2023

- Managed procurement workflows, property management, and inventory tracking in compliance with university regulations.
- Oversaw administrative processes including records management, supply encoding, and inter-department coordination — developing strong organizational, data management, and communication skills.

KEY PROJECTS

Academia Access — Student Portal

Tech Stack: React · Vite · Tailwind CSS · JavaScript · jQuery · PHP · Laravel · LiveWire · MySQL

- Built a comprehensive student portal with role-based access control (RBAC) for admins, students, and teachers — featuring course enrollment management, grade tracking, and real-time notifications.

E-Commerce Platform — Tank Trove (Aquatic Store)

Tech Stack: React · Redux · Tailwind CSS · Node.js · Express.js · MongoDB · JWT · Vercel

- Developed a full-featured e-commerce platform with product catalog, shopping cart, JWT authentication, Stripe payment integration, and an admin dashboard for inventory management.

DigiBayan — Barangay Information Management System

Tech Stack: JavaScript · Bootstrap 5 · PHP · MySQL · jsPDF · XLSX.js · XAMPP

- Designed a web platform to digitize local government operations including permit applications, resident data management, certifications issuance, and real-time analytics dashboards.

Lease Track — Rental Monitoring System

Tech Stack: PHP · MySQL · Bootstrap · JavaScript

- Developed a rental monitoring system for landlords to manage property records, tenant tracking, and automated payment schedules.

Trucking Rental Services Web App — JDTS

Tech Stack: React · JavaScript · Firebase · CSS

- Built a responsive web application for a trucking services provider with Firebase backend integration and real-time data management.

Eternal Canvas — Tattoo Shop Web App

Tech Stack: Vite · JavaScript · Web Design

- Developed a modern web application for a tattoo shop featuring online appointment booking, design gallery exploration, and portfolio showcase.

EDUCATION

Bachelor of Science in Information Technology

University of Visayas — Cebu, Philippines | Focus: Mobile Application Development

Bachelor of Science in Information Technology (*Transferred*)

Southwestern University PHINMA — Cebu, Philippines | Focus: Web Development & Software Development

CERTIFICATIONS & TRAINING

- React JS Tutorial Certificate — Great Learning (April 2024)
- Android Application Development Certificate — Great Learning (March 2024)
- AWS Cloud Practitioner Essentials — Amazon Web Services (June 2023)
- Coding Workshop Completion Certificate — Stacktrek Inc. (September 2022)
- TESDA — Workplace Communication & Environmental Sustainability (March 2022)

LANGUAGES

English — Professional Working Proficiency

Filipino — Native / Full Professional Proficiency
